

## Wai Hung Construction Engineering Company 偉雄建築工程有限公司

Wai Hung Construction Engineering has been working actively in the construction field in Hong Kong for more than 20 years. We specialize in **Reinforced Bar Fixing** and **Civil Construction Engineering** works. They include Road and Drainage, Deep Foundation and Basement, Airport Pavement and Auxiliary Buildings, Multi-cells Box Culverts, Steel and R.C. Bridges and Station Superstructure works etc. We have participated in large projects such as the Mass Transit Railroad, Chek Lap Kok Airport, KCRC West Rail and Tsim Sha Tsui Extension.

We have been sub-contractor to many established and well-known construction companies. Our works were well received by our principles, some of whom are listed as follows :

- *Amec-Hong Kong Construction Joint Venture*
- *A C G Joint Venture*
- *Bachy Soletanche Group*
- *China Harbour Eng. Co.*
- *Gammon Construction Limited.*
- *Lantau Expressway Joint Venture*
- *Nishimatsu Construction Co., Ltd.*
- *and more...*

With our various plants and equipment, a strong financial background and excellent technical and engineering supports, we are confident we can provide the kind of service and performance expected and required of a sub-contractor.
